#### NOTES TO THE FINANCIAL STATEMENTS

# NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# ENTITY

The Texas Workforce Commission (Commission) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The Commission was created by House Bill 1863 in 1995 to create and operate an integrated workforce development system for Texas. The legislation accomplished this through the consolidation of 28 job training, employment and employment-related educational programs from 10 different state entities into the new Workforce Commission. The first transition of programs began on March 1, 1996, and the Commission completed the consolidation and began full operation on June 1, 1996. In 2015, Senate Bill 208 moved the Vocational Rehabilitation, Business Enterprises of Texas and Older Blind Independent Living Services as well as the Criss Cole Rehabilitation Center from the Texas Department of Assistive and Rehabilitative Services (DARS) to the Commission effective September 1, 2016. The Rehabilitation Council of Texas was also included in the transfer.

Due to the statewide requirements embedded in *Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report is considered for audit by the State Auditor as part of the audit of the State of Texas Annual Comprehensive Financial Report (ACFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

A memo of understanding exists between the IAWP-TC and the Commission that outlines the roles and responsibilities of both parties. This fund is used to record the financial activity of the Conference Accounts and the White Cane Day Account maintained by the IAWP-TC in local bank accounts.

#### **BASIS OF ACCOUNTING**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Basis conversion adjustment fund types convert modified accrued basis to full accrued basis of accounting. The following activities are recognized when the related liability is incurred. The following activities are recognized in these fund types:

- Capital assets
- Accumulated depreciation
- Unpaid employee compensable leave
- The outstanding debt service principal on long-term liabilities
- Capital leases
- Long-term claims and judgments
- Full accrual revenues and expenses
- Pension amounts in governmental activities

Proprietary fund types (enterprise funds and internal service fund) and fiduciary fund types (pension and other employee benefit trust funds, external investment trust funds, private-purpose trust funds and custodial funds) are accounted for on the full accrual basis of accounting. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time the liabilities are incurred.

Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Operating expenses for the enterprise and internal services funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

#### **BUDGETS AND BUDGETARY ACCOUNTING**

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after fiscal year-end for which they were appropriated.

# ASSETS, LIABILITIES AND FUND BALANCES/NET POSITION

# Assets

# Cash and Cash Equivalents

Short-term, highly-liquid investments with an original maturity of three months or less are considered cash equivalents.

# Securities Lending Collateral

Investments are generally stated at fair value with certain exceptions in accordance with GASB Statement No. 72 Fair Value Measurement and Application.

Invested security lending collaterals are measured at fair value.

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses on the operating statement. These costs are reported at gross.

#### **Restricted Assets**

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include certain proceeds of enterprise fund general obligation and revenue bonds, as well as certain revenues set aside for statutory or contractual requirements.

#### Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally using the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in both governmental and proprietary fund types. The costs of these items are expensed when the items are used or consumed.

#### **Capital Assets**

Assets that meet the reporting threshold and useful life are capitalized. The capitalization threshold and the estimated useful life vary depending on the asset type. These assets are capitalized at cost if purchased, or at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets (such as works of art and historical treasures) are not depreciated. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

#### **Other Receivables – Current and Noncurrent**

The disaggregation of other receivables as reported in the financial statements is disclosed in Note 24.

#### Liabilities

#### Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

#### Other Payables – Current and Noncurrent

The disaggregation of other payables as reported in the financial statements is disclosed in Note 24.

#### Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from

the same funding source from which each employee's salary or wage compensation was paid.

#### **Fund Balance/Net Position**

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

The resources are used in the following order. When both restricted and unrestricted resources are available, use restricted resources first and unrestricted resources (as they are needed). When only restricted resources are available for use in governmental funds, use committed resources first, assigned resources second and unassigned resources last.

#### Fund Balance Components

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

**Nonspendable fund balance** includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

**Restricted fund balance** includes those resources that have constraints placed on their use through external parties - such as creditors, grantors, contributors, laws or regulations of other governments, or by law through constitutional provisions or enabling legislation.

**Committed fund balance** can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.

**Assigned fund balance** includes amounts constrained by the state's intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

**Unassigned fund balance** is the residual classification for the general fund. This classification represents fund balance that was not restricted, committed or assigned to specific purposes within the general fund.

#### Net Investment in Capital Assets

Net investments in capital assets consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.

#### **Restricted Net Position**

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like, or imposed by law through constitutional provisions or enabling legislation.

**Restricted for Unemployment Trust Fund** represents designated funds available for payment of unemployment benefit claims.

#### **Unrestricted Net Position**

Unrestricted net position consists of net resources that do not meet the definition of the preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

# INTERFUND ACTIVITIES AND BALANCES

The agency has the following types of transactions between funds.

## Transfers

Legally required transfers that are reported when incurred as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

## Reimbursements

Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

#### Interfund Receivables and Payables

Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as 'current'. Balances for repayment due in two (or more) years are classified as 'noncurrent'.

The composition of the agency's interfund activities and transactions is presented in Note 12.

#### Restricted Cash in State Treasury

Warrants issued from Fund 0937 reduce the Restricted Cash in State Treasury account when they are issued. Funds to cover these warrants are not drawn down until they are presented for payment.

#### Cash in Federal Treasury

Deposits in the Federal Treasury at August 31, 2022 were \$2,229,827,498.99. Unemployment Compensation funds are deposited with the United States Secretary of the Treasury, to the credit of this State in the Unemployment Trust Fund, established and maintained pursuant to Section 904 of the Social Security Act.

#### FAIR VALUE MEASUREMENT

GASB 72 states fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. TWC categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The agency has no recurring fair value measurements as of August 31, 2022.

#### NOTE 4: SHORT-TERM DEBT

During the 73<sup>rd</sup> Legislative Session, legislation was passed which addressed a federal fund cash flow problem affecting state agencies using federal program funds for payroll purposes. The legislation, as codified in Vernon's Texas Code Annotated (V.T.C.A.), Government Code, Section 403.092, Chapter 449, Acts of the 73<sup>rd</sup> Legislature, R.S., provides authority for the Comptroller to make temporary transfers (loans) of general revenue under certain conditions to avoid interest liabilities related to the Cash Management Improvement Act (CMIA).

Because of the significant amount of state benefits paid the Texas Unemployment Trust Fund became insolvent on June 9, 2020. The Commission then began borrowing funds from the United States Treasury, under Title XII of the Social Security Act interest free through September 6, 2021. At September 1, 2021 the amount borrowed totaled \$6.9 billion. As discussed in Note 18 – Management, Discussion and Analysis, the entire loan was paid off by November 24, 2021.

GASB 88 requires disclosure of:

- unused lines of credit.
- assets pledged as collateral for debt.
- terms specified in debt agreements related to significant events of default, termination or acceleration clauses.
- debt disclosures regarding direct borrowings and placement of debt from other debt.

The agency has none of the above lines of credit or debt.

#### NOTE 5: LONG-TERM LIABILITIES

#### Changes in Long-Term Liabilities

During the year ended August 31, 2022, the following changes occurred in liabilities reported in the general long-term debt account.

#### Employee's Compensable Leave

If a state employee has had continuous employment with the state for at least six months, the state employee is entitled to payment for all unused vacation time accrued in the event of the employee's resignation, dismissal or separation from state employment. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net position. Both an expense and a liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

#### Leases

This disclosure reports the debt for both the principal and interest for each of the succeeding five fiscal years and in five-year increments thereafter.

The changes in Employee's Compensable Leave are reflected in the table below.

# NOTE 12: INTERFUND ACTIVITY AND TRANSACTIONS

As explained in Note 1 on Interfund Transactions and Balances there are transactions between funds and agencies. At year end, amounts to be received or paid are reported as:

- Interfund Receivables or Interfund Payables
- Due From Other Agencies or Due To Other Agencies
- Due From Other Funds or Due To Other Funds
- Operating Transfers In or Operating Transfers Out
- Legislative Transfers In or Legislative Transfers Out

The agency experienced routine transfers between its funds, and with other state agencies, which included unemployment compensation reimbursements, transfers within the Unemployment Trust Fund, and transfers to record amortization costs. Repayment of current interfund balances will occur within one year from the date of the financial statements. Individual balances and activity at August 31, 2022, were as follows.

# NOTE 13: CONTINUANCE SUBJECT TO REVIEW

Under the *Texas Sunset Act*, the Commission will be abolished effective September 1, 2027, unless continued in existence by the 90<sup>th</sup> Legislature as provided by the Act. If abolished, the agency may continue until September 1, 2028, to close out its operations.

# NOTE 14: ADJUSTMENTS TO FUND BALANCES AND NET POSITION

The beginning net position for Fund 9998, Capital Assets Basis Conversion, has been decreased by \$6,645,934.07. The Commission had previously reported an asset both as purchased software and construction in progress. Since the asset should be reported as construction in progress, it was removed from the purchased assets to accurately reflect the purchased asset balance.

The beginning net position for Fund 0938, the Unemployment Trust Fund Account, has been decreased by \$165,344,458.85. The Commission had overstated the prior year Federal Receivable in error.

	Fund 0938	Fund 9998	Total

# NOTE 15: CONTINGENCIES AND COMMITMENTS

Under the Lost Wage Assistance (LWA) program, the Commission paid an additional \$300 per week in unemployment benefits for weeks of unemployment beginning August 1, 2020 and ending September 5, 2020. The program had been established through a presidential memorandum signed by President Trump on August 8, 2021. The funds for the LWA program came from the Federal Emergency Management Agency (FEMA). A small percentage of the unemployment benefits paid under LWA program were sent to individuals who may not have been entitled to receive them whether by error or by fraudulent activities, including identity theft. This amount is estimated to be \$4.2 million. It is uncertain if this amount will eventually be remitted to the Federal Emergency Management Agency (FEMA).

The Commission was involved in several lawsuits touching on civil rights and unemployment discrimination at August 31, 2022. For all cases, management feels it is unlikely that the outcome for these claims will exceed \$25,000 or materially affect the financial position of the Commission.

The Career School or College Tuition Trust Fund (0925) provides refunds to students when the school or college they are attending closes and alternative training cannot be obtained. At the end of the year the Commission accrues a liability for these potential refunds, if any, and reflects them in Exhibit A-1. However, in some cases the Commission has been unable to obtain any records from certain closed schools. Because the likelihood of refunding tuition in these situations is uncertain, the potential liability to these students is considered contingent. At year end, there were no contingent liabilities.

The Commission, as an administrator of federal funds, awards contracts to subgrantees. The costs incurred by each subgrantee under contract are the responsibility of the Commission. Consequently, the Commission becomes contingently liable for any questioned costs that are ultimately disallowed by the granting federal agency. Although the Commission pursues aggressive debt collection for the subgrantees, collection cannot be assured. As of August 31, 2022, records of the Audit Resolution Unit indicate that federal grantor agency audits identified no subgrantee questionable costs for which the Texas Workforce Commission is contingently liable.

# NOTE 16: SUBSEQUENT EVENTS

On September 16, 2022, in accordance with Section 204.123(a) of the Labor Code \$19,936,793 was transferred from the Employment Training Investment Act (ETIA) Holding Fund to the Skills Development Program since the amount in the Unemployment Trust Fund Account was above the statutorily defined floor as computed under Section 201.061, that is, one percent of total taxable wages for the four calendar quarters ending June 30, 2022.

On September 28, 2022, the Governor's Office provided the Texas Workforce Commission with \$758.7 million dollars in Coronavirus Relief Funds (CRF) and in return the Texas Workforce Commission provided the same amount to the Governor's Office from American Rescue Plan Act (ARPA) funds. This swap in funding was related to the later expiration dates of the ARPA funds.

# NOTE 17: RISK MANAGEMENT

The Texas Workforce Commission is exposed to a variety of civil claims resulting from the performance of its duties. It is agency policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The agency assumes substantially all risks associated with tort and liability claims due to the performance of its duties. The agency does carry commercial automobile insurance for its vehicle fleet, but the agency is not involved in any risk pools with other government entities.

The agency's liabilities are reported when it is both probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. Changes in the balances of the agency's claims liabilities during fiscal 2022 were:

FY	Beginning Liability Increase	Decrease	Ending	
		Indicado	20010000	Liability
2022	\$ 0	\$	\$	0

There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past four years.

#### NOTE 18: MANAGEMENT DISCUSSION AND ANALYSIS

Total unemployment benefits paid from all sources in FY 2022 declined to \$1.96 billion as compared to \$26.08 billion in FY 2021.

In September 2021 the Texas unemployment rate was 5.1%. As the Texas economy continued to recover from the COVID-19 pandemic the unemployment rate stood at 4.1% by fiscal year end.

On June 26, 2021, Governor Greg Abbot notified the U.S. Department of Labor that the State of Texas would end its participation in most of the COVID-19 related program effective June 26, 2021. The remaining COVID-19 program, the 100% federally funded extended benefit program (EB), expired on September 4, 2021. As a result, COVID-19 related federally funded benefits declined drastically from \$21.1 billion in FY 2021 to \$179.9 million in 2022.

As a result of the economic effects of the pandemic the Commission had begun borrowing interest free funds on June 9, 2020 from the Federal Government under Title XII of the Social Security Act to continue to pay state unemployment benefits. By August 31, 2021 the amount owed by the Commission was \$6.9 billion. Between September 1, 2021 and November 24, 2021 the Commission paid down the Title XII debt to an outstanding balance of \$5.8 billion.

Under Senate Bill 8 of the 3<sup>rd</sup> Legislative Special Session, \$7,245,419,946 was appropriated to the Comptroller of Public Accounts from funds received by Texas in the Coronavirus State Fiscal Recovery Fund existing in the United State Treasury. On November 19, 2021, these funds were transferred to the Texas Workforce Commission for the purpose of paying back the outstanding Title XII loans and to provide funds to return the unemployment compensation fund to the

statutory floor computed under Section 204.061, Labor Code. On November 19, 2021, after the statutory floor was computed, \$266 million was returned to the Office of the Governor. On November 24, 2021, the remaining Title XII debt of \$5.8 was paid back leaving a balance of \$1.2 billion in the unemployment compensation fund which satisfied the provisions of Senate Bill 8. This \$1.2 was used to pay unemployment benefits during FY2022.

By the close of FY2022, the Texas Workforce Commission had obligated \$5.6 billion, representing 95% of federal Child Care & Development Block Grant funds provided through various pandemic related grant awards. These stimulus funds provided child care relief funds paid directly to providers, child care business coaching, enhanced reimbursement rates to subsidized child care providers, supplemental distributions to local workforce development boards to serve more low-income families, and multiple initiatives to expand the supply and improve the quality of child care in the state.

#### NOTE 20: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Effective in fiscal 2022, GASB Statement No. 87, Leases, except paragraphs 4, 13, 21-39 and 30 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. It applies to contracts not explicitly identified as leases but meet the definition of a lease, as a contract that conveys control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. These requirements include:

- recognition of certain lease assets and liabilities for leases that were previously classified as operating leases
- requires a lessee to recognize a lease liability and a right to use lease asset
- requires a lessor to recognize a lease receivable and deferred inflow of resources
- the lease term period includes the noncancelable right to use an underlying asset, plus optional periods that are reasonably certain to be exercised
- the lease liability is measured at the present value of payments expected to be made during the lease term
- the lease asset is initially measured as the sum of the lease liability
- the lease asset should be amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset

\* The Civil Rights Division of the Texas Workforce Commission conducts investigations arising from complaints regarding employment. The Equal Employment Opportunity Commission (EEOC) pay for these investigations on a fixed fee basis.

Per the provisions of OMB Uniform Guidance 2 CFR Part 200, "a Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors." The Texas Comptroller of Public Accounts has interpreted this statement to mean that fixed fee contracts are not Federal awards, and therefore, not subject to the provisions of OMB Uniform Guidance 2 CFR Part 200. Thus, the fixed fee contracts that TWC maintains with EEOC is not considered a federal award, and therefore, are not included in the Schedule of Federal Financial Assistance.
